Continuous School Improvement (CSI)

Maxwell Elementary Middle School (MEMS)

September 2013

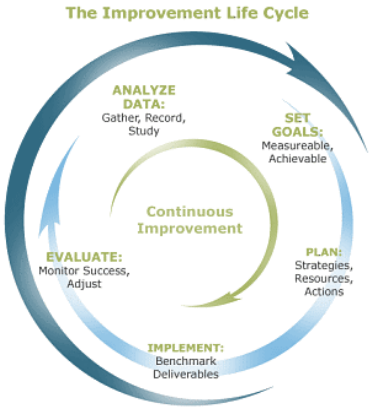
Website: http://www.dodea.edu/Americas/Georgia-Alabama/MaxwellAFB/MaxwellAFBES/csi.cfm

Special points of interest:

- AdSPIE Cycle for Continuous School Improvement (CSI)
- School-wide Goals
- What is coming up next?

MEMS Uses the AdSPIE Cycle for School Improvement

Just like the Air Force has their OODA Loop, Maxwell Elementary Middle School (MEMS) has our **AdSPIE** Cycle for Continuous School Improvement.



We go through a continuous improvement cycle of **A**nalyzing **d**ata, **S**etting goals, **P**lanning interventions, **I**mplementing our assessments, **E**valuating our successes, and repeating the process.

You can follow our progress through the **AdSPIE** Cycle on our website and around our school.

Follow how MEMS is "Soaring to New Heights" and go through the AdSPIE Cycle in the cafeteria.

Follow how MEMS "Shoots for the Moon" and view our school goal data in the hallway outside the cafeteria.

Follow grade levels' progress through the AdSPIE Cycle on their data walls.

MEMS' School-wide Goals

Our staff has analyzed our Terra Nova standardized test scores for 2013 and set the following goals for school year 2013-2014:

Elementary School Goals

Measurement - All students will improve their measurement skills across the curriculum.

Writing Strategies – Elementary students will improve their abilities to write in an organized, grade-level appropriate manner.

Middle School Goals

Measurement - All students will improve their measurement skills across the curriculum.

Reading – Middle School students will improve their ability to evaluate and extend meaning of text.

Last year we had goals in Writing and Math Problem Solving. All grade levels improved their Writing performance on the Terra Nova standardized test. All grade levels except eighth improved their Problem Solving scores.

What is coming up next?

-Baseline data for new goals

-Revised Mission and Vision (We need your input! What are our core values as outcomes for students?)

-Need parents on our committee (We meet every Tuesday after school.)
