

**Department of Defense Domestic Dependant
Elementary and Secondary Schools**

Safety Policy

It is the responsibility of every person in our schools to ensure that our educational programs and all support services protect and promote the health and safety of our students, our employees and school visitors.

Therefore, I charge every DDESS team member to become familiar with the following regulations and operating procedures:

- DoDEA Regulation 4800.1, DoDEA Safety Program.
- DoDEA Regulation 4800.4, DoDEA Chemical Hygiene Program.
- DoDEA Regulation 4800.5, DoDEA Blood borne Pathogens Exposure Control Program.
- DDESS Chemical Hygiene & Safety Plan.

Operational safety and health, whether in the laboratory or in the classroom is of paramount importance. How we perform all activities and our personal perspectives regarding safety, health and the environment are critical to the success of an outstanding educational experience. Safety is everybody's responsibility, I ask for your commitment to this organizational goal.
