Corrections to Academic Salary Lane Changes

The Department of Defense Dependents Schools (DoDDS) is clarifying the policy of the Personnel Center regarding the correction of erroneous academic salary lane changes.

Any error in the effective date of a previously approved academic salary lane change will be corrected at the time the error is discovered to reflect the accurate effective date if enough subsequent creditable course work has been completed to cover the deficit. If sufficient creditable course work has not been completed, the action effecting the academic salary lane change will be cancelled. The cancellation date will be the same as the original effective date.

A handwritten signature in cursive script, appearing to read "Paul Wolfe".
