Where We Are Going

The DoDEA Vision Statement describes an educational system unbound by traditional school concepts of time, age, and location. It is a system driven by the needs of its students and the realities of a highly technological global marketplace.

Achieving the DoDEA vision for our schools and students presents a very ambitious challenge to everyone in our community. The work done during school year 1995-1996 will serve as the foundation for our efforts in coming years. As the goals selected as priorities for that initial year entailed significant reform, they will continue as the priority goals for school year 1996-1997.

TA T TOA.

We would like to thank you for your continued expressions of support and appreciation for the work that is being performed by our staff and students worldwide. In the many letters we have received recognizing the staff's dedication and commitment, it is apparent that you, the stakeholders, sense the constancy of purpose from which that dedication grows. We will continue to strive to merit your trust and confidence.
