

Culminating Project on Seedfolks

1. Color in the country, and outline and color in the state of each character's origin. Add Puerto Rico (boy who grew pumpkins) and Poland (old woman Holocaust survivor) for a **total of 14 places on 3 maps**. Using a legend on the map, color code the country/state and the character who comes from each place.
2. Rewrite or type your chart of characters, ethnicity, quotes and contributions to garden. Color or otherwise decorate it.
3. Create your own character and write an additional chapter to Seedfolks. Mention the character's name, ethnicity, and his/her contribution or connection to the garden. Add your character to your maps to make **15**. This portion must be typed.
4. Make a cover page from construction paper. You can draw or paint it, make a collage from cut-outs, use computer graphics and designs, or otherwise decorate the cover any way you wish. The cover must include your name, due date, class name and teacher name.
