How to Use DoDEA Video Products

DoDEA's Communications Office in Arlington, Virginia has a Video Production Branch, staffed by two audio-visual production specialists who create and produce a variety of video products. These video products support a wide variety of DoDEA programs and initiatives and include public service announcements (PSAs) which air in American Forces Network and the Pentagon Channel, news-oriented products, video testimonials, training videos, and promotional pieces. All of these products are available on the DoDEA website. Hopefully, many principals have seen these products and have had a chance to use them in their communications program. This issue will provide an in depth look at video products that are available, where you can find them, and how you can use them to your school's benefit.
