Superintendent's Highlights

The New York & Virginia schools have united during school year 1999/2000 in an effort to give real meaning to TEAM 2000, Leading Students to Future Success! It has been through a spirit of partnership and sharing among the schools in West Point, NY, Dahlgren, VA, and Quantico, VA that we have been able to successfully accomplish our mission.

Our TerraNova assessments reflected a reduced number of students performing below the 25th percentile at each site. Individualized student data was used to plan instructional interventions that were closely monitored and recorded. Special instructional interventions implemented during excess planning time paid off in documented student learning gains.

Ashurst Elementary achieved Blue Ribbon status. Parent and community involvement multiplied at each tier of the home-school partnership. Infusion of technology into content areas resulted in significant student learning successes. Collaborative efforts among all levels of the staff have contributed to a tremendously successful year in each of the three school systems.

**DoDEA Strategic Plan: School Improvement Implementation
School Year 99/00 Priorities**

Goal 3: Student Achievement And Citizenship

Benchmark 3.10: Demonstrate student technological proficiency.....

Students demonstrated increased technology proficiency in all curriculum areas. Pilot programs incorporating technology in the instructional program gave teachers and students opportunities to stay abreast of the latest developments. These innovations enabled students in the bottom quartile to show dramatic improvements.

Goal 4: Math And Science Achievement

Benchmark 4.3: Increase student proficiency in math and science.....

Greater integration of technology into math and science classes resulted in increased student achievement. Performance assessments provided numerous alternate methods for students to demonstrate their knowledge and understanding. Training was conducted in all schools in the revised math curriculum standards and materials.

Goal 7: Teacher Education and Professional Development

Benchmark 7.1: Provide professional development structure for educators.....

Pre-Implementation training was provided in math, music and art by curriculum consultants. Site-based staff development integrating technology into the curriculum continued to strengthen our total program. In-house peer coaches maintained the district-wide emphasis on effective instructional practices at the school level.

Goal 10: Organizational Development

Benchmark 10.8: Establish technology for teachers and administrators.....

We continued to increase the capability of all stakeholders to utilize technology information management systems. Winschool and Excent programs were installed at all schools and hands-on training was provided. Several schools were involved in pilot programs to automate classroom level management systems in the areas of grade books, attendance, and parent communication.

Goal 8: Parental Participation
Benchmark 8.1: Implement/Evaluate Multi-Tiered School-Home Partnership.....
 The multi-tiered school-home partnership is firmly entrenched in all schools. Schools continued to emphasize a student-centered approach to customer service. A variety of measures document the increased parent and community involvement in helping to shape the instructional goals and increase student achievement. Partnerships increased opportunities for students at all levels.
