g. Summary of DoD information system or electronic collection. Answers to these questions should be consistent with security guidelines for release of information to the public.

(1) Describe the purpose of this DoD information system or electronic collection and briefly describe the types of personal information about individuals collected in the system.

The principal purpose of the DCPS.AS is to provide for the input of payroll dollars into the DoDEA accounting system (DoDEA WAAS). Resource Management personnel pull DoDEA's bi-weekly gross pay files from DoD Civilian Pay System (DCPS) and upload the files to DCPA.AS. DCPS.AS converts the raw pay files and then generates the transaction files at a more detailed level of the payroll dollars for DoDEA WAAS. DCPS.AS does not collect personnel information from individuals. Personal information about individuals such as name, social security numbers, job title, salary, pay plan, and awards are collected electronically from DCPS.

(2) Briefly describe the privacy risks associated with the PII collected and how these risks are addressed to safeguard privacy.

Privacy risks associated with the PII collected - None.

Access to the computerized information is controlled by passwords which are issued only to authorized personnel. Records are retained on a server to which limited workstations have access. Server and workstations are located in controlled-access building. In addition, video cameras were used in the building for security, surveillance, and/or monitoring purposes. Encryption of backups containing sensitive data is enforced.
