

IN THEIR WORDS

A Remarkable Achievement

The Army succeeded admirably in a task that transcended its military mission. It accepted the challenge of establishing in Europe a school system for its dependent children and ***created, virtually from nothing, a self-contained educational system that would meet the needs of over 30,000 children.***

The success achieved is to the credit of the service itself as well as to that of the dedicated men and women who established and maintained the system.

The Dependents School Program of the U.S. Army, Europe, 1946 – 1956
