

**DoDEA Virtual School
2020-2021**

Dear Parents and Sponsors,

Thank you for joining us at our opening session Monday. We also want to thank all of you for your gracious patience while we embark on this new journey! We know that a number of you are requesting additional information about the start of school and specifically, what to expect this week.

Students in Kindergarten through fifth grade will receive a welcome email from their teachers beginning Tuesday. Our focus for week one is to create connections and community. Your teacher will schedule individual and small group meetings with students Tuesday – Friday. In addition, they will provide synchronous and asynchronous “Getting to Know You” activities, such as Show and Tell, Read Aloud, and All About Me. Students will begin working in their Schoology course on Monday, August 31.

For grades 6 – 12, teachers will begin contacting their students midweek and will schedule small group sessions at the end of the week. Courses will appear one at a time in Schoology as the scheduling is completed.

We look forward to a great rest of our orientation week, building relationships with teachers, fostering connections between students, and starting to navigate the virtual school experience.

As always, thank you,
DoDEA Virtual School Team
