Cadets learn their roles in the battalion and adjust to their new learning environment

Green Tech Takes Root

JROTC cadets work to restore the environment around Daegu Middle High School

The Purpose As new housing towers are being constructed on Camp Walker, many unused homes are being torn down, along with the beautiful bushes and garden plants on their lawns. With community permission, JROTC cadets are transplanting as many plants as possible to the garden area outside DMHS to will ensure unforgettable JROTC experiences for the 2019-2020 Warrior Battalion! This way, the plants can continue to flourish and improve the appearance of the school grounds.

The Plan During the first quarter, cadets have used class time and volunteered over the weekends to work on this project. The new cadets used the work the last year cadets and expanded from that. Now, the process of transplanting bushes, ferns, and grass is almost complete. The area that once barren with wood chips and weeds is now a green paradise! Various species of birds and insects are already appearing in the new environment. However, there is still work to be done. This year, new cadets are transferring grown trees so then students will be able to have shade in the future, hot days.

The People Through this hands-on project, cadets are learning how to care for the environment and community. It has taken many hands and hard work— and many dirtied white shoes— to get where the project is now. This project has also shown the dedication of our cadets. Most of them come every Saturday and work 4-6 hours, sometimes even in the rain. Green Tech has certainly created a positive atmosphere in the cadet community.

ABOUT JROTC

If you are interested in learning essential life and leadership skills and having a ton of fun, please talk to Lieutenant Colonel Fleetwood (RET.) or Sergeant First Class Rivera (RET.) for more information on how the DMHS JROTC program can benefit you and the community; because our mission is:

to motivate young people to become better citizens.

AVID Strategies for Success

Close Reading

Close reading is thoughtful, critical analysis of a text that focuses on significant details or patterns in order to develop a deep, precise understanding of the text’s form, craft, meanings, etc.

It is a key requirement of the Common Core Standards and directs the reader’s attention to the text itself.

AVID students hard at work and having fun while learning.
