

# NETZABERG ELEMENTARY SCHOOL

Welcomes 2<sup>nd</sup> Graders

Dear Parents,

We wish to welcome you and your child to 2<sup>nd</sup> grade. We are looking forward to this coming school year and hope to make it a great learning and growing experience for all students. We will be offering exciting learning activities in all subject areas to promote students' curiosity, creativity, and analytical skills. Second grade is a year in which children are expected to collaborate with their peers, take responsibility, and become more independent learners. As parents you can support your child's growth by:

- Reading to and with your child each day. Our base library offers a great summer reading program: <https://grafenwoehr.armymwr.com/promos/summer-reading-program>
- Practice basic math addition and subtraction facts within 20.
- Providing healthy breakfast before school
- Ensuring your child gets enough sleep
- Assist with homework
- Encourage your child to write letters or keep a journal and focus on legible handwriting, capitalization and punctuation, and forming complete sentences.
