This system maintains information on events deemed serious incidents (misconduct/accidents/breaches in force protection and individual concerns including suicide/suicide ideation and suicide attempts). Maintained information includes Name, Age, School Grade, and Gender of the subject, and where applicable, victim or potential victim.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

This PII is maintained to identify the subject(s) and potential victim(s) of misconduct, individual concerns (suicide/suicide attempts/suicide ideation/self-Injurious behavior). The resulting information is used to conduct trend analysis, track repeat offenders or repeated cases of individual concerns, and comply with specific requirements of law enforcement and/or family advocacy programs.

e. Do Individuals have the opportunity to object to the collection of their PII? [ ] Yes [X] No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

Information maintained is required to assist in matters of misconduct, trend analysis and tracking repeat offenders.

f. Do Individuals have the opportunity to consent to the specific uses of their PII? [ ] Yes [X] No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

PII used on this form is required to obtain specific Gender/Age/ and Grade demographics for trend analysis that will be reviewed to develop mitigations and when needed shape policy. Names are required to identify repeat offenders, or assist law enforcement or family advocacy programs.

(a) Cite the specific provisions of the statute and/or EO that authorizes the operation of the system and the collection of PII.

(b) If direct statutory authority or an Executive Order does not exist, indirect statutory authority may be cited if the authority requires the operation or administration of a program, the execution of which will require the collection and maintenance of a system of records.

(c) If direct or indirect authority does not exist, DoD Components can use their general statutory grants of authority ("internal housekeeping") as the primary authority. The requirement, directive, or instruction implementing the statute within the DoD Component must be identified.

n. Does this DoD information system or electronic collection have an active and approved Office of Management and Budget (OMB) Control Number?

---

¹The definition of PHI involves evaluating conditions listed in the HIPAA. Consult with General Counsel to make this determination.

²Guidance on determining the PI confidentiality impact level, see Section 2.5 "Categorization of PI" Using NIST SP 800-122." Use the identified PI confidentiality impact level to apply the appropriate Privacy Overlay low, moderate, or high. This activity may be conducted as part of the categorization exercise that occurs under the Risk Management Framework (RMF). Note that categorization under the RMF is typically conducted using the information types described in NIST Special Publication 800-60, which are not as granular as the PI data elements listed in the PIA table. Determining the PI confidentiality impact level is most effective when done in collaboration with the Information Owner, Information System Owner, Information System Security Manager, and representatives from the security and privacy organizations, such as the Information System Security Officer (ISSO) and Senior Component Official for Privacy (SCOP) or designees.
