OVERSEAS CONTRACTORS ARE ELIGIBLE TO ENROLL THEIR CHILDREN IN DODEA SCHOOLS ON A SPACE-AVAILABLE BASIS.

As outlined in U.S. Code, Title 20 Subsection 923, children of employees of contractors employed in carrying out work for the United States in overseas area shall be enrolled as space-available, tuition-paying.

WHAT DOES SPACE-AVAILABLE MEAN?

"Space-available" means space is not guaranteed. If a school is at capacity or expected to reach capacity, space-available enrollment will be denied.

Space-available enrollment requires more than physical space for a student within a classroom -- it also considers the availability of resources required to support a student’s educational program.

Space-available enrollment is approved on an annual basis and is not promised from one year to the next. Space availability is determined by child, not by family.

There is no longer a "space-created" enrollment category. This category was eliminated in the Oct. 27, 2021 update to DoDEA Regulation 1342.13.

WHAT IS THE REGISTRATION PROCESS FOR SPACE-AVAILABLE ENROLLMENT?

1) Complete registration on DoDEA Online Registration for Students (DORS) www.dodea.edu/DORS

2) Once you have completed the registration process, the school registrar will be notified. The school will coordinate with the District Superintendent’s Office to determine if space is available for your child.

3) You will be notified of the status of your enrollment request in August. Space-available enrollment decisions are made after reviewing enrollment percentages and resources needed for space-required students.

WHAT IF SPACE IS NOT AVAILABLE?

If space is not available for your student, there may be other options available within your local community. We encourage you to reach out to your School Liaison Officer for resources and support.
