DoDEA Blueprint - Community Strategic Goal 3
Providing excellence in education to every student requires a wide variety of talents. To that end, DoDEA must be able to assess, recruit and grow its human capital capacity.

Are you thinking of becoming a principal?

We will host the DoDEA Pacific Series for Prospective Principals the last Tuesday of each month starting September 28. 1530 - 1630 JST/1630 - 1730 Guam

TEAMS Meeting Link

Open to DoDEA Pacific Teachers, ISSs, & School Leaders, etc.

For more information, email Kathleen.Smith@DODEA.Edu & Kerry.Weidler@DODEA.Edu
The Role of the Principal in DoDEA! A principal in DoDEA is different than private, public, or parochial. This session will outline the major duties a DoDEA principal has to be able to undertake in order to be successful.

Welcome to the Family! This session will cover one of the most important aspects of a school; culture. What it is, how it can be developed, how it can be nurtured, and how it decides whether people want to stay or go.

Communication Skills 101! This session will see various communication methods explained and their applicability to helping the principal be an effective leader of their school.

First, Second, and Then! This session will talk about the art of strategic planning. We will discuss the analysis of data, designing a plan to attack the problem, developing that plan as a solution, implementing the solution, and evaluating the outcomes of the solution to determine next steps.

You Have the Money. Maybe! This session will cover the budgeting information that all DoDEA principals need in order to know how to purchase items for their school. This important topic will also keep effective DoDEA principals from losing their jobs!

You're Hired! This session will cover what all is included when a principal might need to hire a new employee. Topics covered will include recruitment, the hiring process, onboarding, and sustaining.

Yep.. THAT Happened! This session will cover all the aspects of reporting that a principal might need to undertake so that all parties are informed in a thorough and timely fashion and so that children are properly taken care of.

That’s What Focused Collaboration Is! This session will cover the tenets of focused collaboration, its applicability to increase high levels of learning for all students, and the use of the focused collaboration observation tool to gather data to inform professional learning possibilities.
