

Students enrolled in the AVID Program

Are ambitious about planning for a post-secondary education

Have higher acceptance rates into colleges and universities

2017 **AVID** and **U.S.** Seniors Who Enrolled in College the First Fall Term After High School

Are more likely to persist in their college degree programs

AVID and **U.S.** Persistence Into the Second Year of College (Fall 2015 to Fall 2016)

AVID students implementing their service learning project at the elementary school.

The students enjoy special trips, like this one a ropes course adventure park.

"Fun Fridays" help students stay motivated throughout the school year.

Spangdahlem High School

AVID College Preparatory Program

*The road to success
begins here.*

AVID helps students to:

Stay Organized

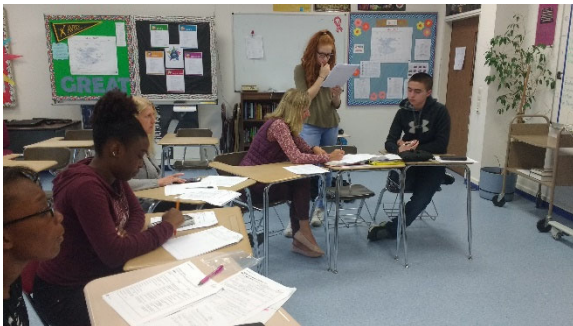

A “hybrid” binder system, or combination of physical binder and e-binder, helps students stay organized and prepared.

Study Effectively

Time management tools and a focused notes system help students work smarter, not harder, to learn academic content in all classes.

Manage Challenging Academic Content

Weekly study groups give students an opportunity to collaborate with tutors and peers on challenging course content using the inquiry process.

A Typical Week in the AVID Elective Class

Mondays and Tuesdays	AVID Curriculum Socratic seminars, vocabulary building, goal setting, service learning projects, college and career exploration and planning
Wednesdays and Thursdays	Tutorial Study Groups Student, peer tutor, staff tutor, and teacher support to navigate challenging course content
Fridays	Fun Fridays! Field trips, team building activities, guest speakers

Students interested in applying to the AVID program must meet the following requirements:

- ✓ **GPA of at least 2.0**
- ✓ **Qualifying Test Scores**
- ✓ **Positive Attitude**
- ✓ **Motivation to Succeed**

In order for students to be accepted into the AVID program, they must complete the following steps:

Application
Teacher Recommendation
Interview
Contract
