NAEP 2015 and 2017 Score Gaps in Reading

African-American

4th Grade Reading, 2015-2017 (Black-White Comparison)

- In 2015, DoDEA’s African-American 4th grade students scored an average of 228, on the NAEP Reading Assessment, which was 9 points lower than the DoDEA’s White students’ average score of 237. In 2015, the Nation’s Public Schools (NP) African-American 4th grade students scored an average of 206, on the NAEP Reading Assessment, which was 26 points lower than the Nation’s Public Schools (NP) White students’ average score of 232.

- In 2017, DoDEA’s African-American 4th grade students scored an average of 226, on the NAEP Reading Assessment, which was 14 points lower than the DoDEA’s White students’ average score of 240. In 2017, the Nation’s Public Schools (NP) African-American 4th grade students scored an average of 205, on the NAEP Reading Assessment, which was 26 points lower than the Nation’s Public Schools (NP) White students’ average score of 231.

8th Grade Reading, 2015-2017 (Black-White Comparison)

- In 2015, DoDEA’s African-American 8th grade students scored an average of 273, on the NAEP Reading Assessment, which was 8 points lower than the DoDEA’s White students’ average score of 281. In 2015, the Nation’s Public Schools (NP) African-American 8th grade students scored an average of 247, on the NAEP Reading Assessment, which was 26 points lower than the Nation’s Public Schools (NP) White students’ average score of 273.

- In 2017, DoDEA’s African-American 8th grade students scored an average of 268, on the NAEP Reading Assessment, which was 16 points lower than the DoDEA’s White students’ average score of 284. In 2017, the Nation’s Public Schools (NP) African-American 8th grade students scored an average of 248, on the NAEP Reading Assessment, which was 26 points lower than the Nation’s Public Schools (NP) White students’ average score of 274.
NAEP 2015 and 2017 Score Gaps in Mathematics

African-American

4th Grade Mathematics, 2015-2017 (Black-White Comparison)

- In 2015, DoDEA’s African-American 4th grade students scored an average of 236, on the NAEP Mathematics Assessment, which was 15 points lower than the DoDEA’s White students’ average score of 251. In 2015, the Nation’s Public Schools (NP) African-American 4th grade students scored an average of 224, on the NAEP Mathematics Assessment, which was 24 points lower than the Nation’s Public Schools (NP) White students’ average score of 248.

- In 2017, DoDEA’s African-American 4th grade students scored an average of 239, on the NAEP Mathematics Assessment, which was 13 points lower than the DoDEA’s White students' average score of 252. In 2017, the Nation’s Public Schools (NP) African-American 4th grade students scored an average of 223, on the NAEP Mathematics Assessment, which was 25 points lower than the Nation’s Public Schools (NP) White students' average score of 248.

8th Grade Mathematics, 2015-2017 (Black-White Comparison)

- In 2015, DoDEA’s African-American 8th grade students scored an average of 271, on the NAEP Mathematics Assessment, which was 27 points lower than the DoDEA’s White students' average score of 298. In 2015, the Nation’s Public Schools (NP) African-American 8th grade students scored an average of 260, on the NAEP Mathematics Assessment, which was 31 points lower than the Nation’s Public Schools (NP) White students’ average score of 291.

- In 2017, DoDEA’s African-American 8th grade students scored an average of 277, on the NAEP Mathematics Assessment, which was 21 points lower than the DoDEA’s White students' average score of 298. In 2017, the Nation’s Public Schools (NP) African-American 8th grade students scored an average of 260, on the NAEP Mathematics Assessment, which was 32 points lower than the Nation’s Public Schools (NP) White students’ average score of 292.
4th Grade Reading, 2015-2017 (Hispanic-White Comparison)

- In 2015, DoDEA’s Hispanic 4th grade students scored an average of 228, on the NAEP Reading Assessment, which was 9 points lower than the DoDEA’s White students’ average score of 237. In 2015, the Nation’s Public Schools (NP) Hispanic 4th grade students scored an average of 208, on the NAEP Reading Assessment, which was 24 points lower than the Nation’s Public Schools (NP) White students’ average score of 232.

- In 2017, DoDEA’s Hispanic 4th grade students scored an average of 229, on the NAEP Reading Assessment, which was 11 points lower than the DoDEA’s White students’ average score of 240. In 2017, the Nation’s Public Schools (NP) Hispanic 4th grade students scored an average of 208, on the NAEP Reading Assessment, which was 23 points lower than the Nation’s Public Schools (NP) White students’ average score of 231.

8th Grade Reading, 2015-2017 (Hispanic-White Comparison)

- In 2015, DoDEA’s Hispanic 8th grade students scored an average of 273, on the NAEP Reading Assessment, which was 8 points lower than the DoDEA’s White students’ average score of 281. In 2015, the Nation’s Public Schools (NP) Hispanic 8th grade students scored an average of 253, on the NAEP Reading Assessment, which was 20 points lower than the Nation’s Public Schools (NP) White students’ average score of 273.

- In 2017, DoDEA’s Hispanic 8th grade students scored an average of 277, on the NAEP Reading Assessment, which was 7 points lower than the DoDEA’s White students’ average score of 284. In 2017, the Nation’s Public Schools (NP) Hispanic 8th grade students scored an average of 255, on the NAEP Reading Assessment, which was 19 points lower than the Nation’s Public Schools (NP) White students’ average score of 274.
NAEP 2015 and 2017 Score Gaps in Mathematics

Hispanic

4th Grade Mathematics, 2015-2017 (Hispanic-White Comparison)

- In 2015, DoDEA’s Hispanic 4th grade students scored an average of 244, on the NAEP Mathematics Assessment, which was 7 points lower than the DoDEA’s White students’ average score of 251. In 2015, the Nation’s Public Schools (NP) Hispanic 4th grade students scored an average of 230, on the NAEP Mathematics Assessment, which was 18 points lower than the Nation’s Public Schools (NP) White students’ average score of 248.

- In 2017, DoDEA’s Hispanic 4th grade students scored an average of 244, on the NAEP Mathematics Assessment, which was 8 points lower than the DoDEA’s White students’ average score of 252. In 2017, the Nation’s Public Schools (NP) Hispanic 4th grade students scored an average of 229, on the NAEP Mathematics Assessment, which was 19 points lower than the Nation’s Public Schools (NP) White students’ average score of 248.

8th Grade Mathematics, 2015-2017 (Hispanic-White Comparison)

- In 2015, DoDEA’s Hispanic 8th grade students scored an average of 287, on the NAEP Mathematics Assessment, which was 11 points lower than the DoDEA’s White students’ average score of 298. In 2015, the Nation’s Public Schools (NP) Hispanic 4th grade students scored an average of 269, on the NAEP Mathematics Assessment, which was 22 points lower than the Nation’s Public Schools (NP) White students’ average score of 291.

- In 2017, DoDEA’s Hispanic 8th grade students scored an average of 287, on the NAEP Mathematics Assessment, which was 11 points lower than the DoDEA’s White students’ average score of 298. In 2017, the Nation’s Public Schools (NP) Hispanic 4th grade students scored an average of 268, on the NAEP Mathematics Assessment, which was 24 points lower than the Nation’s Public Schools (NP) White students’ average score of 292.
NAEP 2015 and 2017 Score Gaps in Reading

Asian

4th Grade Reading, 2015-2017 (Asian-White Comparison)

- In 2015, DoDEA’s Asian 4th grade students scored an average of 236, on the NAEP Reading Assessment, which was 1 point lower than the DoDEA’s White students’ average score of 237. In 2015, the Nation’s Public Schools (NP) Asian 4th grade students scored an average of 240, on the NAEP Reading Assessment, which was 8 points higher than the Nation's Public Schools (NP) White students’ average score of 232.

- In 2017, DoDEA’s Asian 4th grade students scored an average of 233, on the NAEP Reading Assessment, which was 7 points lower than the DoDEA’s White students’ average score of 240. In 2017, the Nation’s Public Schools (NP) Asian 4th grade students scored an average of 241, on the NAEP Reading Assessment, which was 10 points higher than the Nation’s Public Schools (NP) White students’ average score of 231.

8th Grade Reading, 2015-2017 (Asian -White Comparison)

- In 2015, DoDEA’s Asian 8th grade students scored an average of 274, on the NAEP Reading Assessment, which was 7 points lower than the DoDEA’s White students’ average score of 281. In 2015, the Nation’s Public Schools (NP) Asian 8th grade students scored an average of 280, on the NAEP Reading Assessment, which was 7 points higher than the Nation's Public Schools (NP) White students’ average score of 273.

- In 2017, DoDEA’s Asian 8th grade students scored an average of 285, on the NAEP Reading Assessment, which was 1 point higher than the DoDEA’s White students’ average score of 284. In 2017, the Nation’s Public Schools (NP) Asian 8th grade students scored an average of 283, on the NAEP Reading Assessment, which was 9 points higher than the Nation’s Public Schools (NP) White students’ average score of 274.
NAEP 2015 and 2017 Score Gaps in Mathematics

Asian

4th Grade Mathematics, 2015-2017 (Asian -White Comparison)

- In 2015, DoDEA’s Asian 4th grade students scored an average of 257, on the NAEP Mathematics Assessment, which was 6 points higher than the DoDEA’s White students’ average score of 251. In 2015, the Nation’s Public Schools (NP) Asian 4th grade students scored an average of 259, on the NAEP Mathematics Assessment, which was 11 points higher than the Nation’s Public Schools (NP) White students’ average score of 248.

- In 2017, DoDEA’s Asian 4th grade students scored an average of 256, on the NAEP Mathematics Assessment, which was 4 points higher than the DoDEA’s White students’ average score of 252. In 2017, the Nation’s Public Schools (NP) Asian 4th grade students scored an average of 260, on the NAEP Mathematics Assessment, which was 12 points higher than the Nation’s Public Schools (NP) White students’ average score of 248.

8th Grade Mathematics, 2015-2017 (Asian -White Comparison)

- In 2015, DoDEA’s Asian 8th grade students scored an average of 298, on the NAEP Mathematics Assessment, which was equal to DoDEA’s White students’ average score of 298. In 2015, the Nation’s Public Schools (NP) Asian 8th grade students scored an average of 307, on the NAEP Mathematics Assessment, which was 16 points higher than the Nation’s Public Schools (NP) White students’ average score of 291.

- In 2017, DoDEA’s Asian 8th grade students scored an average of 307, on the NAEP Mathematics Assessment, which was 9 points higher than the DoDEA’s White students’ average score of 298. In 2017, the Nation’s Public Schools (NP) Asian 8th grade students scored an average of 312, on the NAEP Mathematics Assessment, which was 20 points higher than the Nation’s Public Schools (NP) White students’ average score of 292.
