This site provides an overview and instruction manual to the DoDEA 21st Century Education Facilities Specifications documents. This web site communicates space types and facility organization for both primary and secondary schools.
Who?

DoDEA, with contractor support, worked together to create education facility specifications for 21st Century learning spaces. The education facility specifications will help guide the future replacement, renovation and improvement of DoDEA schools.

What?

The purpose of this website is to facilitate the future visioning and development of Facilities for 21st Century education. 21st Century Education Facilities Specifications documents aid designers in creating spaces that are flexible and adaptable, facilitate multiple modes of learning, and provide varying scales of learning environments. DoDEA selected an online format for the new design specifications for accessibility, feedback, and the ability to make user-guided improvements.
