Presidential Award for Excellence in Mathematics and Science Teaching 2019

Anna Sansone has been a science teacher for 14 years and is currently in her fourth year teaching seventh and eighth grade science at Vicenza Middle School for the Department of Defense Education Activity (DoDEA). Certified in mathematics, science, social studies, and as an educational technologist, Anna is a National Geographic certified educator, an alumna of Space Camp for Educators, and is the 2019 State Teacher of the Year for DoDEA. She has also participated in NASA and European Space Agency (ESA) social space science communication events.

PAEMST is a celebration and acknowledgement of the work done by our entire school community. A main feature of my classroom work is ongoing collaboration with the other schools in our complex and organization and with STEM professionals in our military community. I believe in teaching science by bringing the classroom into the community and the community into the classroom. This award is the result of the work of our entire community in giving our students a variety of powerful STEM experiences.
